The school opened in 1881, making it one of the oldest public high schools in the state of Texas. The current building was built in 1975 with approximately 316,000 square feet. A theater building was built in 2000 with 23,500 square feet. Under the 2017 bond program, the school is under construction with renovation and additions of approximately 25,000 square feet with improvements to athletics, dance and special education. Austin High uses the Academy Model to group students into four academies – Academy of Classical Studies, Design & Technology, Global Studies, and Science & Innovation. In order to create identities for these academies and have them be successful through collaboration and connection, multiple planning issues and concerns need to be addressed. Interview Overview The interview was completed with Principal Amy Taylor and addressed shortcomings and desired improvements throughout the campus. The building was built in the '70s, and at that time was an open-concept floor plan. Since then, the school has been subdivided into individual studios, and now these insular spaces with no natural daylight do not match the concept and goals of the academies. Student group work rooms of varying sizes are desired along with added transparency from the studios. Each of the academies needs to function for its intended goals. For instance, Science & Innovation needs to have access to collaboration and maker spaces while Classical Studies needs to have areas for debates and speeches. The 6 C's per the District's Educational Specifications are embedded into the pillars of learning for the academies, and the current design (studios and support spaces) does not match that learning model. Some teachers take students to the nearby Austin Public Library to use the small group rooms, and the campus would like to have a similar resource – servable, technology-rich small and medium group rooms. Looking to the future, labs/maker spaces might need to function differently. They may not be tied directly to a studio or an instructor and might function more as a checkout resource. A music production studio, like the current film production studio, is also requested. There is a huge interest in music editing due to the connection to the Austin music scene. While a complete overhaul of the interior may not be possible, the principal did stress the importance of upgrading the furniture. Having furniture that is mobile, reconfigurable and wired for charging is on the wish list. There are not enough practice rooms or space. Guitar and jazz band are growing programs that need to be housed in more appropriate spaces. The band needs dressing rooms. They only have storage space to house instruments, which is inadequate. The black box theater is in adequate shape but needs a shop area. They construct everything on stage. The black box theater does not have access to restrooms. The principal believes the school's location – which includes views of downtown – creates an opportunity to rent spaces out to the public or allow them to be used by students for events such as proms and other celebrations. Currently, most banquets/proms take place off campus at a cost burden to the students and PTA. There are some issues with the exterior/grounds of the building that were covered. The circulation of the circle drive to the front door is problematic with pedestrian traffic to the portables. General congestion in the area around Lady Bird Lake exacerbates problems for students, parents and buses getting in and out of campus. There are courses that use the

lake as a resource, and current paths and sidewalks require students to walk out of their way. It is desired to rework walking paths to the lake and create a shortcut next to the track. To make more use of outdoor learning, creating an amphitheater for performances, speeches and lectures was mentioned. There are mature trees around the site, creating opportunities for shaded gathering spots. The trees are a source of pride for the campus and are taken care of by a former PTA member. Any future tree removal would be very problematic for the campus.

Assessment Findings The Educational Suitability Assessment of Austin High overall score and places the campus in the Average category. The assessment consists of seven General Building categories and eight Academic categories to determine areas that need more attention.

Unsatisfactory Categories (36-50%): Security Score is unsatisfactory. Controllability of Systems Score is unsatisfactory. Lighting is dated fluorescent fixtures with only on/off switch. The commons area has harsh, industrialtype lighting. A high percentage of the studios do not have access to natural daylight. Food Services Final Draft 02 07/02/2021 /11/2022 310 Comal Street, Suite 100, Austin, TX 78702 | perkinswill.com Page 3 of 8 Educational Suitability Summary Report Austin High School Score is unsatisfactory. Centralized dining cafeteria is undersized per Ed Spec for the school capacity. Acoustics are not good in the cafeteria. There is no access to outdoor dining and limited natural daylight (with no exterior views). Media Resources Score is unsatisfactory. The library has areas for small/medium group meetings and a mixture of new/old furniture. There is not much visibility/transparency of the library into the main commons area. Administration Spaces Score is unsatisfactory. Administration space is in adequate condition, has a welcoming feel and has a conference room.

Average Categories (51-65%): Exterior Score is average. Site circulation with circular drive is problematic, especially with student traffic to portables. General Building Score is average. Some interior hallways are only 5 feet wide. Community use rooms and/or access to spaces for the community are needed. There is no dedicated community room. General appearance of the school is good. Environmental Quality Score is average. Many studios do not have access to natural daylight or views to the exterior. Artificial lighting is adequate but dated and not controllable. Furniture, Fixtures, Equipment Score is average. There is a mix of new and old furniture. The studio furniture is typically one type of table and chair. The commons area has some high-top tables and soft lounge furniture, but sparse placement throughout the space. Some furniture is light and can be rapidly reconfigured, while the rest is heavy and not easily movable. Academics & Learning Score is average. Studios are undersized per current education specifications and do not have the appropriate collaboration space. There are portables on campus. World languages and a daycare are housed in the portables. While this assessment does not cover the portables, it is assumed spaces in portables will be found deficient. Final Draft 02 07/02/2021 /11/2022 310 Comal Street, Suite 100, Austin, TX 78702 | perkinswill.com Page 4 of 8 Educational Suitability Summary Report Austin High School Technology Score is average. Instructional technology is satisfactory. The school does not have an adequate number of charging locations, especially in the commons area. A/V is adequate in common spaces – cafeteria and gym.

Satisfactory Categories (66-80%): Outdoor Learning and Activity Score is satisfactory. Outdoor learning studios at grade need additional infrastructure (tiered seating) to be more functional. On the upper-level patios, additional infrastructure, permanent shade structures and power are needed to be functional. Rain gardens and cisterns are not present. Visual and Performing Arts Score is satisfactory. Fine arts (band, orchestra, choir, theater) programs do not have adequate storage

or support spaces. There is no ensemble practice room, no sink in the band support room (or theater backstage) and no storage for chairs/music stands. Acoustics are adequate. Athletics and Wellness Score is satisfactory. Athletics addition from 2017 bond program is under construction and will provide much needed support spaces. The exterior facilities cannot host UIL competitions due to lack of spectator seating and lighting. Very Satisfactory Categories (81-100%): CTE and Career Connected Learning Score is very satisfactory. Courses are offered in many areas and while only a few are part of the pathways, there are many course options available.
